(a) Rules.

(1) Implementing rules. The Secretary may adopt rules to implement this chapter.

(2) Complex projects; preapplication process. The Secretary shall adopt rules to determine when a project requiring a permit is large and complex. These rules shall provide that an applicant proposing such a project, prior to filing an application for a permit, shall initiate a project scoping process pursuant to 3 V.S.A. § 2828 or shall hold an informational meeting that is open to the public. The rules shall ensure that:

(A) Written notice of an informational meeting under this section is sent to the owner of the land where the project is located if the applicant is not the owner; the municipality in which the project is located; the municipal and regional planning commissions for any municipality in which the project is located; if the project site is located on a boundary, any Vermont municipality adjacent to that boundary and the municipal and regional planning commissions for that municipality; and each adjoining property owner. At the time this written notice is sent, the Secretary also shall post the notice to the environmental notice bulletin.

(B) The notice to adjoining property owners informs them of how they can continue to receive notices and information through the environmental notice bulletin concerning the project as it is reviewed by the Secretary.

(C) The applicant furnishes by affidavit to the Secretary the names of those furnished notice and certifies compliance with the notice requirements of this subsection.

(D) The applicant and the Secretary or designee shall attend the meeting. The applicant shall respond to questions from other attendees.

(b) Additional notice.

(1) The Secretary may require, by rule or in an individual case, measures in addition to those directed by this chapter using any method

reasonably calculated to give direct notice to persons potentially affected by a decision on the application.

(2) In an individual case, the Secretary may determine to apply the procedures of section 7713 (Type 2) of this chapter to the issuance of a permit otherwise subject to the procedures of section 7715 (Type 4) or section 7716 (Type 5) of this chapter.

(c) Extension of deadlines. A person may request that the Secretary extend any deadline for comment or requesting a public informational meeting established by this chapter. The person shall submit the request before the deadline and include a brief explanation of why the extension is justified. If the request is granted, the Secretary shall provide notice of the new deadline through the environmental notice bulletin.

§ 7704. ADMINISTRATIVE RECORD

(a) The Secretary shall create an administrative record for each application for a permit and shall make the administrative record available to the public.

(b) The Secretary shall base a draft or final decision on each application for a permit on the administrative record.

(2) Computation of a time period shall use calendar days.

Subchapter 2. Standard Procedures

§ 7711. PERMIT PROCEDURES; STANDARD PROVISIONS

(a) Notice through the environmental notice bulletin. When this chapter requires notice through the environmental notice bulletin:

(1) The bulletin shall generate and send an e-mail to notify:

(A) each person requiring notice under section 7712 of this chapter;

(B) the applicant;

(C) each person on an interested persons list;

(D) each municipality in which the activity to be permitted is located,

(C) the name and address of the facility or activity to be permitted,
if applicable;

(D) a brief description of the activity for which the permit would
be issued;

(G) when a public meeting has been scheduled, the time, date, and

and the period and process for submitting written comments on that draft
permit or notice;

(J) any other information that this chapter directs be included in a
particular notice to be generated by the bulletin.

When this chapter requires notice of an application to adjoining property owners, the applicant shall provide notice of the application by U.S. mail to all adjoining property owners, on a form developed by the Secretary, at the time the application is submitted to the Secretary. The form shall state how the property owners can continue to receive notices and information concerning the project as it is reviewed by the Secretary. The applicant shall provide a signed certification to the Secretary that all adjoining property owners have been notified of the application. However, if the applicant has provided written notice to adjoining property owners as part of the preapplication engagement process for complex projects under rules adopted in accordance with subsection 7703(a) of this title, then instead of the written notice required of the applicant by this subsection, the Department shall provide notice of the application through the environmental notice bulletin to those adjoining property owners who have requested notice.

(C) hold the period for written comments open for at least seven days after the meeting.

(2) The applicant or applicant's representative and the Secretary or designee shall attend the meeting. The applicant shall cause to be present those professionals retained in the preparation of the application. At the meeting, the applicant and the Secretary each shall answer questions relevant to the application or draft decision to the best of their ability.

(f) Draft decisions. When this chapter requires the Secretary to post a draft decision or draft general permit to the environmental notice bulletin, the Secretary shall post to the bulletin the draft decision or draft general permit and

all documents on which the Secretary relied in issuing the draft. This post shall include instructions on how to inspect and how to request a copy of each other document that is part of the administrative record of the draft decision or permit.

(g) Response to comments. When this chapter requires the Secretary to provide a response to comments, the Secretary shall provide a response to each comment received during the comment period and the basis for the response. The Secretary also shall specify each provision of the draft decision that has been changed in the final decision and the reasons for each change. The Secretary shall post the response to comments to the environmental notice bulletin and send it to all commenters.

(h) Final decisions; content; notice.

(1) The Secretary's final decision on an application for a permit or on the issuance of a general permit shall include a concise statement of the facts and analysis supporting the decision that is sufficient to apprise the reader of the decision's factual and legal basis. The final decision also shall provide notice that it may be appealed and state the period for filing an appeal and how and where to file an appeal.

(2) When this chapter requires that the Secretary post a final decision to the environmental notice bulletin, the Secretary also shall send a copy of the final decision to all commenters.

(f) Notice of final decision or final general permit. The Secretary shall provide notice of the final decision or final general permit through the environmental notice bulletin and shall post the final decision or permit to the bulletin. When the Secretary issues the final decision or final general permit, the Secretary shall provide a response to comments.

(g) Compliance with Clean Air and Water Acts. opportunity to address those concerns where possible before a permit becomes final and subject to appeal; and

(2) require that an issue raised on appeal be identified or related to an issue identified in a comment to the Secretary while guarding against creating an overly technical approach to the preservation of issues for the purpose of appeal when interpreting whether an appeal satisfies requirements of 10 V.S.A. § 8504(d)(2)(A).
